Intern Goldman Sachs 2025 Full Stack For Students

Description

Goldman Sachs, one of the world's leading investment banks, is offering an Internship program for Full Stack Developers in New York. This program is designed to provide students with the opportunity to gain practical work experience and develop their technical skills in a dynamic and supportive environment.

The Goldman Sachs Internship program for Full Stack Developers in New York is a comprehensive program that provides students with the opportunity to work on cutting-edge technology solutions that support Goldman Sachs' business operations. The program is open to students who are pursuing a degree in Computer Science, Software Engineering, or a related field.

Responsibilities

During the program, students will work on a range of projects and tasks. These may include:

- Designing and implementing software solutions to support Goldman Sachs' business operations
- Collaborating with team members to develop and test software applications
- Participating in code reviews and contributing to the overall codebase
- Conducting research and analysis to support the development of new software solutions

Qualifications

To be eligible for the Goldman Sachs Internship program for Full Stack Developers in New York, students must meet the following requirements:

- Must be enrolled in a degree program in Computer Science, Software Engineering, or a related field
- Must have a minimum GPA of 3.0
- Must have completed at least two years of coursework

Experience

While prior work experience is not required, students who have completed relevant internships or projects will be given preference.

Skills

The Goldman Sachs Internship program for Full Stack Developers in New York is designed to help students develop a range of technical skills, including:

- Front-end development using HTML, CSS, and JavaScript
- Back-end development using Java, Python, or a related programming language
- Familiarity with relational databases and SQL
- Experience with modern web frameworks such as React or Angular
- Strong problem-solving and critical thinking skills
