## Summer Intern Goldman Sachs Data Analytics and Business Intelligence

### Description

Are you looking for an opportunity to explore the world of data analytics and business intelligence? Look no further! Goldman Sachs is offering an exciting summer internship program in Ann Arbor that is designed to help you develop your analytical skills and gain valuable experience in the field. This internship will provide you with the opportunity to work alongside industry experts and take on challenging projects that will push you to grow and learn.

### Responsibilities

As an intern at Goldman Sachs, you will be responsible for a range of tasks that will help you develop your analytical skills. You will work on projects related to data collection, analysis, and visualization, and will have the opportunity to work with a variety of stakeholders to gather requirements and provide insights. You will also be responsible for conducting research and preparing presentations on key findings, and will work with your team to ensure that projects are delivered on time and to the highest standard.

### Qualifications

To be considered for this internship, you must be currently enrolled in a Bachelor's or Master's degree program in a related field such as computer science, statistics, mathematics, engineering, economics, or business. You should also have a strong academic track record and be able to demonstrate excellent analytical and problem-solving skills. Additionally, you should be a self-starter who is able to work independently as well as part of a team.

### Experience

While previous experience in data analytics or business intelligence is not required, it is preferred. However, if you have worked on projects that involve data analysis or visualization, or have taken courses related to these fields, you will be at an advantage. Relevant experience in programming languages such as Python, R, SQL, or Java will also be helpful.

### Skills

The ideal candidate for this internship will have excellent analytical and problem-solving skills, as well as strong communication and collaboration skills. You should be able to work well under pressure and be comfortable with handling large amounts of data. You should also be able to demonstrate an understanding of data visualization techniques and have experience working with tools such as Tableau, Power BI, or Excel.

### Job Benefits

As an intern at Goldman Sachs, you will have access to a range of benefits that will help you to grow and develop your skills. These benefits include competitive pay, networking opportunities, mentorship and coaching, and the opportunity to work on challenging projects that will help you to build your portfolio. You will also be part of a dynamic and diverse team that is committed to helping you succeed.
